All Math Courses

Retaking Tests: If you scored less than 70% on a test*, you may retake the test (within one (1) week after the scored test has been returned to you), *provided* each of the following conditions have been satisfied:

1. You have corrected the test on a separate sheet of paper, showing all your work;
2. A parent or guardian has signed the test;
3. All assignments relating to the test had been timely turned in (***before*** the test); *and*
4. All quizzes leading up to the test had been taken in a timely manner (***before*** the test).

Your replacement grade for the test is equal to the higher grade you received on the test (either your original score, or the score on the retake), but in no event is the replacement grade to exceed 70%.

*Note: The "retake" option is not available for Quizzes, Benchmark Exams, Midterm Exams, and Final Exams. Students in AP classes may not retake a test more than once a quarter.
