

**CONSTRUCTION:** WHS is breaking ground before graduation! Fencing, construction trailers, and big dirt-moving equipment rolling in this week for our new ten-classroom, two-story building going up near the Alameda entrance between the tennis courts, the softball field, the G wing, and the new gym. Our contractor is BHM Construction out of Napa. Our architects are HMC in San Jose. The new J-wing will house our STEM programs in Science, Technology, Engineering and Math including a chemistry suite and an engineering/robotics suite. Estimated completion is Fall 2017 for instruction.

- Thanks to voters for approving the bond in spring 2014!
- Thanks to staff, parents, and student who served on the WHS site facilities committee for the design: STAFF: Diane Mazzei, Jill Baumgartel, Aaron Campbell, Dave Shannon, Matt Sahagun, Joaquin Vega, Jerome Clark STUDENT: Riley Thompson PARENT: Garey Johnson COMMUNITY MEMBER: Colleen Tate
