\*It is expected that students will pass the Physical Fitness Test while enrolled in PE-1. Students who do not pass the Physical Fitness Test in the 9th grade must take P.E. in the 10th grade regardless of their participation in sports. For students who pass the Physical Fitness Test, enrollment in P.E. may be delayed until the 11th/12th grade to give more options in the 10th grade. Each season of a WHS sport complete after 9th grade waives 3.5 P.E. credits.
